

Transform Your YMCA's Operations with Operate Fit

Operate Fit digitizes your YMCA's key operational standards and compliance checks. By converting critical safety protocols and quality controls from paper to digital workflows, we help your organization maintain consistent excellence in foundational operations. Our platform guides staff through required processes while giving leadership real-time visibility into operational compliance across all locations.

Preserve Institutional Knowledge

Never lose critical operational knowledge due to staff turnover again. Operate Fit digitizes your essential processes and provides instant access to:

- Incident Reports & Safety Documentation
- Contract Management & Insurance Certificates
- Equipment Inventory & Maintenance Records
- Facility Safety Checks & Compliance Records
- Program Audits & Aquatics Paperwork

Make Data-Driven Decisions

Gain real-time visibility into your operations:

- Global view of all locations for C-suite executives
- Branch-specific dashboards for local directors
- Track key performance indicators
- Monitor safety and compliance metrics

Real-Time Monitoring & Alerts

Stay ahead of potential issues with intelligent monitoring:

- Instant SMS alerts for serious incidents
- Automated reminders for contract renewals
- Customizable notifications for missed facility checks
- Early warning system for compliance gaps

Empower Your Team

Give your staff the tools they need to succeed:

- Role-based access ensures staff see exactly what they need
- Built-in business rules guide proper procedures
- Automated scheduling removes guesswork
- Continuous access to YMCA operational best practices

Standardize Operations Across All Locations

Ensure consistent excellence throughout your association:

- Implement standardized best practices across all branches
- Monitor adherence to operational procedures
- Access real-time compliance metrics
- Share successful operational strategies association-wide
